3.1.2 Creating a Comparison Document

Step	Activity
3.1.2.1	Export the applicable *Original* (older) document and *Revised* (newer) document.
3.1.2.2	Modify the "Hyperlink" style from the *Styles* box: 1. Click on the icon next to the "Hyperlink" style, then click on "Modify…". 2. Click on the B to unbold the style, then click on the icon next to the Font Color box and select "Automatic". This step is necessary to ensure that the font type and color are correct in the TOC after it is unlinked in the next step.
3.1.2.3	Unlink all fields in each document • Select the entire document and press Ctrl+Shift+F9 and all fields become unlinked. **Note:** If you encounter issues with freezing the fields, the document may contain immutable tables. From the *Developer* tab, select "Design Mode", then try unlinking the fields again.  • If fields are present in the footer, they must be frozen in each section separately.

Step	Activity
	A correctly unlinked TOC should look like this: 3.1.2.4	In order to perform the next step, close all Word documents and create/open a new blank document.
3.1.2.5	Under *Review*: a. Within the *Tracking* tab, change the drop down to show "All Markup".  b. Select *Show Markup* > *Balloons* and ensure "Show All Revisions Inline" is checked. c. Select *Tracking* > *Track Changes Options* > *Advanced Options* and ensure the appropriate settings are selected by referring to screenshot selections. 3.1.2.6	On the *Review* tab of Word, click on *Compare* and select *Compare…* a. Select the "More >>" button. Under the *Comparisons settings*, ensure the appropriate settings are selected by referring to screenshot selections.

	Version No.	28.0
	Page	10 of 98

Step	Activity
	 b. On the *Compare Documents* screen: • On the left side under *Original document*, click on the folder icon and navigate to and select the applicable Original document, which should be the older document. • On the right side under *Revised document*, click on the folder icon and navigate to and select the applicable Revised document, which should be the newer document. *Your Name* will automatically populate in the *Label changes with* field; **delete it**. • Click on *OK*. c. If there are multiple documents showing on the screen, on the *Review* tab, click on *Compare* and select *Show Source Documents* and select "Hide Source Documents" so that only the document labeled "Compare Result" is showing.  d. Save and name the resulting compare document appropriately.
3.1.2.7	Review the comparison Word document for the following: • Blank pages. • Tables or text running off the page. • Tables are hard to comprehend, for example:
